

The **JAPAN SOCIETY** of
Naval Architects, as professionals
leading the shipbuilding industry,
and **Ocean Engineers**,
as experts with knowledge of science

ABOUT **JASNAOE**

HISTORY:

The Zosen Kyokai, a predecessor of the Society of Naval Architects of Japan, was founded in 1897, and the Kansai Society of Naval Architects and the Kyushu Zosenkai were established in 1912 and 1924 successively. In 2005, The Japan Society of Naval Architects and Ocean Engineers (JASNAOE) launched as a unified society of these societies and succeeded the history, knowledge and members of three societies to support industries, universities and maritime organisations more widely and deeply.

ROLE:

The JASNAOE has organized conferences, symposia, workshops and training programs, and has published technical journals (Japanese and English), bulletins and technical/educational books. JASNAOE also provides opportunities for technical information exchange for members and promotes up-to-date research projects to advance the science and technology.

MEMBER BENEFITS:

Membership of JASNAOE is widely recognized as a professional qualification in industries and universities. As a member you can access to all qualified articles and activities of the society, and enjoy substantial discounts to all publications, conferences and symposia.

PUBLICATIONS

TECHNICAL JOURNALS

- Journal of Marine Science and Technology (JMST)
- Journal of the Japan Society of Naval Architects and Ocean Engineers

CONFERENCE PROCEEDINGS

- Papers presented at JASNAOE meetings in Japan
- Papers presented at JASNAOE symposia in Japan

BULLETIN

- KANRIN / 咸臨
- Technical reviews and articles, transactions, current topics and photos are presented.

BOOKS

- Handbooks of naval architecture
- Technical books covering a wide range of design, construction, development, operation, experiment and theory on ships and marine structures
- Educational books describing general knowledge of naval architecture and ocean engineering

CONFERENCES

- Annual domestic meetings are held twice a year, in spring and autumn. More than 300 papers are presented every year. Conferences and Symposia are organized in various aspects of naval architecture and ocean engineering.
- JASNAOE organizes and cooperates with international conferences such as PAAMES, ITTC, ISSC, IMDC, OMAE, WMTC.
- Training programs, workshops and forums are organized to enhance technical ability of engineers and for juvenile education.

RESEARCH PROJECTS

- Over thirty research projects have been promoted in the forefront of naval engineering for the last five years.
- Recent research projects: Ocean environment / Logistics / New design and production / Ultimate strength / Nonlinear coupling /etc.
- Fruits of research projects are presented in annual meetings or in symposia relevant to the theme and are published in technical papers.
