

Journal of Marine Science and Technology

Official Journal of the Japan Society of Naval Architects and Ocean Engineers (JASNAOE) produced by Springer, provides a forum for the discussion of current issues in marine science and technology. It focuses on naval architecture, marine engineering and ocean engineering.

With support of the Japan Society for the Promotion of Science, the following two featured papers are openly accessed by

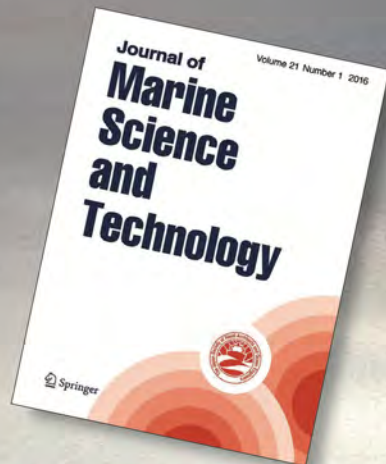

<http://link.springer.com/journal/773>

- **New procedure for the analysis of speed trial results, with special attention to the correction of tidal current effect**
by Prof. N. Toki (Ehime Univ.)
- **Broaching probability for a ship in irregular stern-quartering waves: theoretical prediction and experimental validation**
by Dr. N. Umeda, Messrs. S. Usada and K. Mizumoto (Osaka Univ.) and Mr. A. Matsuda (NRIFE)
