

TEAM Conference

The aim of TEAM Conference is to provide an opportunity for researchers and engineers in the field of ships and marine structures in Asian Pacific region to exchange recent research results and new ideas and to promote discussions of problems in design and production techniques of ships and marine structures. For this purpose, different from other conferences and symposia, every participant is expected to give a talk in the TEAM Conference; however, this rule can be exempted for once.

Those who have already presented papers in previous TEAM Conferences or intends to present papers this time or in the future are welcome to attend the TEAM 2014 Conference. All participants can enjoy the friendly atmosphere and enthusiastically exchange technical ideas of ships and marine structures in the TEAM Conference.
